

Shafton Parish Council

Health and Safety Policy Statement

This Health and Safety Policy Statement was adopted
by the Council at its Meeting held 12 October 2020

Overview

The Council recognises and accepts its responsibilities as an employer for providing a safe and healthy working environment for all its employees, contractors and members of the public. As such, we have drafted this policy to meet our duty under Section 2(3) of the Health and Safety at Work etc. Act 1974.

Part 1: Statement of intent

This is the health and safety policy statement of: Shafton Parish Council

Our policy is to ensure, so far as is reasonably practicable, that our activities are carried out safely and do not pose a risk to the health of our employees, volunteers, general public, visitors and others who may use the Parish council grounds, or buildings we are responsible for. This will be in accordance with good practice and any relevant statutory provisions where they apply.

Shafton Parish council accepts its overall responsibility for this. We will ensure that adequate resources are made available to achieve this objective. Any decisions we make will have due regard for it. We will appoint a member of the Parish council to have specific responsibility for this policy and its implementation. We will keep health and safety matters under review at appropriate intervals. We will monitor the effectiveness of the policy, amending it where we believe it is no longer valid. It is the duty of each employee and volunteer to exercise personal responsibility for their own safety and that of others. This policy will be brought to their attention. We will try to ensure that everyone involved with the Parish plays his or her part in its implementation.

Further detail about our organisation and arrangements for managing health and safety is set out in this document. A copy of it will be kept in the Community Hall and made available to others on request.

Part 2: Responsibilities for health and safety

1 Overall and final responsibility for health and safety:

The member of the Parish Council with overall responsibility for implementing our policy is:

Cllr Paul Archer

They will ensure that:

- The standards set out in this policy are implemented and maintained
- Where necessary, specialist health and safety assistance is obtained
- Any hazards reported to them are rectified immediately
- Only competent persons carry out repairs, modifications, inspections and tests

- Any accidents are investigated, recorded and reported if necessary
- Relevant health and safety documents and records are retained
- They keep up to date on health and safety matters relevant to the Parish
- Set a personal example on matters of health and safety.

2 Day-to-day responsibility for ensuring this policy is put into practice:

The member of the Parish council with Day-to-day responsibility for ensuring this policy is put into practice:

The Clerk to the Council David C Gill

They will ensure that:

All employees and volunteers are aware of their health and safety responsibilities

- Adequate precautions are taken as set out in this policy and related risk assessments
- Adequate information and training is provided for those that need it
- Any hazards or complaints are investigated and dealt with as soon as possible
- Where defects cannot be corrected immediately, interim steps are taken to prevent danger
- All accidents are reported in-line with the requirements of this policy
- Advice is sought where clarification is necessary on the implementation of this policy
- Set a personal example on matters of health and safety

3 All employees should:

• co-operate with supervisors and managers on health and safety matters; • take reasonable care of their own health and safety; and • report all health and safety concerns to an appropriate person (as detailed above).

Part 3: Arrangements for health and safety

Risk assessment

We will complete risk assessments to identify what we need to do to comply with health and safety law. We will record our findings, implementing any necessary precautions. We will review and revise these where we suspect that they are no longer valid.

Information and Training

We will provide any necessary information and training for our employees and volunteers in a timely manner. We will keep a record of what is provided.

We will also give relevant information to contractors and self-employed people who may need this to complete their work safely.

First Aid

We will provide adequate first aid facilities including – as a minimum – a suitably stocked first aid box. We will also provide relevant information for employees and volunteers.

Our first aid box is located in:

Shafton Community Centre

Accident Reporting

We will keep an accident book and record details therein. We will report to the enforcing authority and keep records of certain accidents to employees, volunteers and members of the public in accordance with the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations.

Our Accident Book is kept in:

Shafton Parish Council's Lap top

Monitoring

We will make periodic checks to ensure that our precautions remain effective and adequate. We will also ensure that any lifting, work or electrical equipment and church utilities are inspected as necessary to ensure that they remain safe. We will keep records of the checks we make.

Contractors

If we employ contractors, we make sure that they have their own health & safety policy and public and Employers Liability Insurance by asking to see copies of the relevant documents.

Record Keeping

Our Health and Safety Risk Assessments, records and other documents are kept in:

Shafton Parish Council lap top

Specific Arrangements

Asbestos

We will take steps to identify the presence of asbestos in our buildings and, if so, assess any risk from it. We will then implement any plan to manage that risk. We will also provide relevant information to others who might need it (for example, building contractors). We will keep records of the checks, assessments and plans we have made.

Buildings

We will ensure that the fabric of our buildings is regularly inspected to make sure it is safe. Defects will be repaired as soon as is practicable bearing

Where necessary, temporary measures will be taken to prevent danger until permanent repairs can be made. This will include glazing.

Grounds

We will ensure that boundary walls and gates are kept in good repair. We will have trees inspected by a competent person and have any necessary work carried out to make them safe.

Construction Work

Where maintenance, refurbishment and restoration work is planned for our grounds, we will identify what we need to do to ensure the safety of all those concerned before work starts. We will also determine if we have any responsibilities under the Construction (Design and Management) Regulations and comply with these if necessary

Display Screen Equipment

Where our employees and volunteers regularly use computers daily, for continuous periods of an hour or more, we will analyse workstations to identify precautions, implementing these as necessary. We will also provide information, training, eye/eyesight tests (on request) and special spectacles if needed.

Electricity

We will ensure that any electrical system, fixed machine and portable appliances is maintained so as to prevent danger. Any defective equipment will not be used until it is repaired or replaced. We will keep records of the checks made where appropriate.

Events

Where we intend to hold large or unusual concerts, services and fundraising events, we will identify any additional precautions that are necessary and implement these.

Fire

We will complete a specific risk assessment to identify what steps are necessary to prevent, detect and take in the event of a fire. We will record our findings, implementing any necessary precautions. We will review and revise these where we suspect that they are no longer valid.

Heating Systems

We will ensure that any oil or gas heating system is suitably maintained and checked annually by a competent person. Any defects found will be corrected immediately and we will keep records of the checks made.

Hazardous Substances

We only use domestic cleaning or horticultural products and petrol. We will ensure that these are stored, used and disposed of in accordance with the manufacturers' instructions taking, any necessary precautions that are specified.

Lifting Equipment

We will ensure that any lifting equipment is properly maintained and thoroughly examined periodically by a competent person.

Manual Handling

We will avoid the need for lifting or carrying heavy objects as far as is possible. Where this is not practical, we will make use of lifting aids (such as, trolleys) or other precautions including team lifting.

Oil Storage

Where we store large quantities of oil, we will take adequate precautions to ensure that oil cannot leak into the ground or any water course. This may include the provision of a double skinned plastic tank, an adequate bund, regular checks and proper maintenance, etc.

Preparation of Food

We will ensure that on those occasions when we prepare food, we use a clean and disinfected work surface, utensils and equipment. We will store food in such a way as to avoid contamination, provide hand-washing facilities and suitable arrangements for the disposal of waste.

Slips and Trips

We will implement suitable precautions to prevent slips or trips, taking account of any difficulty the frail, elderly or disabled may have in negotiating access. We will make periodic checks to ensure that floors, coverings, steps and pathways remain in good condition, free from obstruction and that any precautions (such as, hand rails or lighting) remain adequate. We will correct any defects identified, keeping records of the checks we make. We will have arrangements in place to manage pathways in winter weather.

Working at Height

Where possible we will try and avoid the need for work at height. Where this is not practicable, we will ensure that any work is properly planned to identify suitable precautions. We will make sure that these are implemented, including the provision of any training and checks to ensure the safety of any equipment used.

Work Equipment

Any work equipment (including any hand tools) we provide will be suitable, in good condition and properly maintained. Where necessary, some equipment (such as, ladders) will be regularly checked to make sure they are safe. We will keep records of any checks we make.

Working Alone

We will identify circumstances where our employees and volunteers work alone, and implement suitable precautions to ensure their safety.

END
